## INTRODUCTION TO TRAVEL CLUB CRYPTO

### TRAVEL CLUB CRYPTO, LLC

Travel Club Crypto, LLC is a company founded with the vision of sustainably combining the travel and cryptocurrency industries. TCC will incorporate its knowledge of both industries to build a solid foundation. We will operate using known successful models as our guide. The Travel Club Crypto Token will provide support on different levels as the company grows. Our sole intent is to build a successful company that will benefit TCC Token and Traditional investors alike.

## The Token

Travel Club Crypto Token (\$TCC) is a cryptocurrency on the Ethereum Blockchain that will be used for Tiered Travel Club Memberships. The future will hold the ability to use Travel Club Crypto Token (\$TCC) as payment for a variety of Travel Services such as exclusive retreats, resorts, flights, hotels, car rentals, and more.

---

## The Retreat

Our first priority after a successful launch will be initializing our marketing plan & acquiring legal representation for the specific needs of the company. Acquisition of initial 3rd Party Travel Partners will soon follow. We will then finalize our location and begin property negotiations and planning for the Travel Club Crypto Retreat style resort.

---

# Travel Partners

Travel Club Crypto Members will receive exclusive discounts with our travel partners located around the world. Discounts will be offered to all TCC members. Higher tiers will receive special offers including but not limited to priority reservations & free stays at the Travel Club Crypto retreat style resort. We are looking forward to offering these discounts very soon. Join us on our journey of travel fun and crypto adventure.

---

# THE RETREAT

The Travel Club Crypto Retreat will be located in the Caribbean & will be a simple yet comfortable and very relaxing retreat style resort. It will be comprised of canopy bungalows designed to promote both private and group activities. We want to make it clear this is not a multimillion dollar venture. It is designed to be an easily achievable and maintainable resort.

## LIQUIDITY PROVIDERS

Liquidity providers receive LP coins for providing liquidity. Users pay fees for trading on UniSwap, which is allocated to liquidity providers depending on the quantity of LP coins or percent share they own in the pool. LP may suffer a temporary loss as a result of providing liquidity, and they may not get the same number of coins back.

- 100% of the TCC Token Supply was paired with liquidity on Uniswap for launch.
- The initial liquidity liquidity is locked for 100 years
- All auto liquidity pairs gained through taxes are automatically burned as a function in the contract.
- No Pre or Private Sale - All initial liquidity provided by Travel Club Crypto, LLC owners.

---
